Remarks

An Examiner's Interview was conducted on July 14, 2009, among the undersigned, Examiner Stone, and his supervising Examiner, believed to be Ardin Marschel (as indicated in the Examiner's Interview Summary mailed July 16, 2009). (The applicants believe the date of the interview indicated on the Examiner's Interview Summary (i.e., 15 July 2009) is incorrect.)

The applicant agrees with the substance of the interview set forth in the Examiner's Interview Summary. The undersigned set forth the applicant's position that there was no reason present at the time of the invention to make the presently claims method because, as stated in previous responses, it was unknown at the time that MPT could be selectively induced in proliferating cells compared to non-proliferating or growth quiescent cells.

No agreement was reached as to the patentability of the claims.

If it is believed that a teleconference will advance prosecution, the examiner is encouraged to contact the undersigned as indicated below.

Respectfully submitted,

Date: August 14, 2009
